Panel discussion planner

1. Goal: help residents understand the options, not reach a verdict.
2. Invite voices with different views and ask each to share sources.
3. Pick a neutral moderator and share questions ahead.
4. Time: 60 minutes (10 intro, 35 questions, 10 audience, 5 close).
5. Ground rules: facts first, no personal attacks, same time for each speaker.
6. After: publish a summary with links.

Neutral questions

- What is written in the contract, and what is a promise?
- How should audits work, and who sees results?
- How long should data be kept, and why?
- How can residents give input before a vote?

I do not join panels as a spokesperson for a side.
